SUMMARY

As a highly motivated IT graduate, I am seeking a challenging role in a dynamic organization where I can contribute my technical skills and enthusiasm to drive innovative solutions. Eager to learn and grow, I aim to leverage my programming, problem-solving, and teamwork abilities to excel in a collaborative IT environment, while continuously upgrading my knowledge to keep pace with technological advancements.

PROJECTS

FORM VALIDATION

- Developed a user-friendly and single page registration form
- Utilized JavaScript to validate user input, providing immediate error feedback
- Enhanced the user experience with clear error messages and guidence.

Tech Stack: **JavaScript**

HOSTEL MANAGEMENT SYSTEM

- Developed a web-based Hostel Management System for efficient room allocation.
- Developers and designers in creating user-friendly and error-free
- Utilized MySQL for database management, ensuring data accuracy and retrieval

Tech Stack: **PHP, MySQL**
